

# Under The Influence

## Volbeat

Remember those days  
Your emotions went wild  
You were so young  
Well, nothing much has changed  
We got older and learned how to get along

Remember those nights  
Remember those days  
I don't know where I've been  
Just move along

I'm under the influence  
I'm overpowered  
There's really nothing I can do anymore  
I'm a fan of yours

Never met you before  
But when I saw you the first time, I knew you were  
I knew you were the one I've been waiting for all my life  
You didn't know

Remember those nights  
Remember those days  
I don't know where I've been  
Just move along

I'm under the influence  
I'm overpowered  
There's really nothing I can do anymore  
I'm a fan of yours  
I'm under the influence  
I'm overpowered  
There's really nothing I can say anymore  
I'm a fan of yours

Hanging on the emotions  
Even before we knew what it was  
I didn't know that you felt the same  
But you said I was the one  
Was the one

I'm under the influence  
I'm overpowered  
There's really nothing I can do anymore  
I'm a fan of yours  
I'm under the influence  
I'm overpowered  
There's really nothing I can say anymore  
I'm a fan of yours

It's not all gone  
It's not all gone  
It's not all gone  
It's not all gone  
It's not all gone

I'm under the influence  
(It's not all gone, it's not all gone)  
I'm overpowered  
(It's not all gone)  
I'm under the influence  
(It's not all gone, it's not all gone)  
I'm overpowered  
(It's not all gone)  
I'm under the influence  
(It's not all gone, it's not all gone)  
I'm overpowered  
(It's not all gone)  
There's really nothing I can say anymore  
I'm a fan of yours
