

## You Will Know

Volbeat

Walk these lonely streets without a home  
Dear Mary, where's the kids  
When did they leave?  
Where did they go?

Feel the morning breeze, after all these years  
Been so far away, in a prison cell  
I no longer wanna feel the darkness in my soul

Forever, forever you will know  
Forever and ever, you will know

Here I sit again, lost at your place  
I brought the flowers that I know you like  
For you my dear

All the memories, after all these years  
Couldn't find a way

Never been the same  
I no longer wanna feel the darkness in my soul

Forever, forever you will know  
Forever and ever, you will know

I'll find the peace alongside the road  
And make believe there's a sign for us all  
The innocence, that I know I behold  
Will set my spirit free, so long

Forever, forever you will know  
Forever and ever, you will know

Forever, forever you will know  
Forever and ever you will know, that I love you
