

## New Life

Volturian

It ran too fast  
We were too blind too see it  
Too young to seize it  
We're free at last  
As compromise is buried in the past

So easy to forget  
Every moment we were blessed with will be back  
In our dreams

We will make a stand  
Through the oceans  
Through the thousand million failures we'll withstand  
Alone with our decisions  
We'll let them go  
Let it die  
To let new life run through

We know we won't leave this place alive  
Stuck in the middle  
We'll be sure to leave our trace wherever they will fly

We will make a stand  
Through the oceans  
Through the thousand million failures we'll withstand  
Alone with our decisions  
We'll let them go  
Let it die  
To let new life run through  
(Let it die)  
To let new life run through

We will make a stand  
Through the oceans  
Through the thousand million failures we'll withstand  
Alone with our decisions  
We'll let them go  
Let it die  
To let new life run through  
(Let it die)  
To let new life run through
