

Get Enough

Volumes

Is this it?
Tell me did you get the message
When did you drop the call
Never really had it at all

Cause you know what you are
How did you make it this far
And all you give is what you get
No regrets, until then I'll be watching you fall

Everybody wants something until they get enough
Everybody needs someone until they get enough

I'm losing all my feeling and you figured me out
I'm split down the middle and I'm losing my doubt
Struck down tell me now how do you live
With nothing left to give

Wishing for some thicker skin
But what you give is what you get
No regrets, until then I'll be taking the fall

Everybody wants something until they get enough
Everybody needs someone until they get enough

But what you give is what you get
No regrets, until then I'll be taking the fall

Everybody needs someone until they get enough

What you give is what you get
Feeling bottom, feeling death
I'll be watching you fall
What you give is what you get
Feeling bottom, feeling death
I'll be watching you fall

Everybody wants something until they get enough
Everybody needs someone until they get enough

But what you give is what you get
No regrets, until then I'll be taking the fall

Everybody needs someone until they get enough

But what you give is what you get
Feeling bottom, feeling death
I'll be watching you fall
But what you give is what you get
Feeling bottom, feeling death
I'll be watching you fall
