I can't pray  
Can't lie  
Afraid don't wait long  
Yeah I can't feel my spine  
Don't wait  
Don't wait for my direction

In all my blood  
And the way I feel now  
No sun again  
Don't wait for my direction

Yeah  
Get a picture cause I'm right back at it again  
Inside my mind  
Too many people lately trying to get under my skin  
Yeah  
Get a picture cause I'm right back at it again  
And I'm bitter about it  
Shut the world out  
All the same, that's where I've been

I can't stay in line  
Despite how hard  
When I try  
I can't feel my mind  
Don't wait  
Don't wait for my direction

Yeah  
Get a picture cause I'm right back at it again  
Inside my mind  
Too many people lately trying to get under my skin  
Yeah  
Get a picture cause I'm right back at it again  
And I'm bitter about it  
Shut the world out  
All the same, that's where I've been

In all my blood  
And the way I feel now  
No sun again  
Don't wait for my direction

I'm at a really bad point  
When it's in my hands  
Like the way I feel now  
One chance, one less  
One less

Yeah

Dead enough  
Got enough  
You're dead  
Got enough  
You're dead

Got enough
