

# Dead World

## Vomitory

Inhale the toxic air  
Fumes from nuclear war  
A reeking wasteland where all is dead  
All life erased  
There is no existence  
Genocide, the extinction of mankind

The final battle raged  
A war to end all wars  
Glorified religious lunacy  
Worshippers of different beliefs  
Justified the slaughter  
Extermination, approved by their god

No resurrection  
The suffering is yours  
No prophecies  
Sacrificed for nothing

Dying in a dead world  
Reapers of flesh  
Dying in a dead world  
Revelations grotesque

All faith ends in pain  
Everyone will die alone  
No escape from mortality  
The decomposition of the mind

In the aftermath  
Kneeling, dying, abandoned  
Realizing there's no paradise  
Only darkness now  
Total annihilation  
No memories will remain

No resurrection  
The suffering is yours  
No prophecies  
Sacrificed for nothing

Dying in a dead world  
Reapers of flesh  
Dying in a dead world  
Revelations grotesque

Dead in a dead world  
Dead in a dead world
