

# Hush Hush

Von Herten Brothers

Hush hush  
High above us  
Up in the sky  
Behind the fuss  
A lullaby of stars

There's so much  
Waiting for us  
And it's grace  
Is in a touch  
So beautiful and soft

Nature takes a moment  
Only to imbibe the melodies  
Descending on her trees  
Such a lovely moment  
Only to remind that there is peace  
High above the evergreens

Hush hush  
High above us  
A lullaby of stars
