

The Rocky Water

Vonda Shepard

I'm gonna go out to sea
Even though the rocky water.... is swallowing me
And I will sail alone... that's what I'll do

Well there's something about this that I fear
No, I can't live without you now that you're here

I can float along the river
Like a boat up on the sea
I can float on the water
Even though my heart is sinking like a stone

I need to close my eyes
And feel the rain and thunder inside of me
We live in a paradise
If only I could see

That as long as you're all right I can breathe
And as long as you're happy, I believe

I can float along the river
Like a boat up on the sea
I can float on the water
Even though my heart is sinking like a stone

As long as you're all right I can breathe
And as long as you're happy, I believe
