

Flesh & Bone

Voodoo Circle

We need to fight, we need a cure
You can pull the trigger if you want some more
Everybody needs more money down the line
Everybody's wrong, everybody's right
Only God can save the night
They tell us to just sit tight

Revolution calling
In the streets tonight
Now the master's falling
Fight with all your might

Could it be right could be wrong
In this house of pain
We gotta fight, gotta be strong
Who will take the blame
Could it be right could be wrong
We're just flesh and bone
We gotta fight, gotta be strong
And take control, together we're strong?

Nowhere to hide, nowhere to go
Living in a hell that lies below
They're selling guns out on the streets
Who is to blame, it's all the same
You just can't escape the keeper
Doing what we can to fear the reaper

Revolution calling
In the streets tonight
Now the master's falling

Could it be right could be wrong
In this house of pain
We gotta fight, gotta be strong
Who will take the blame
Could it be right could be wrong
We're just flesh and bone
We gotta fight, gotta be strong
And take control, together we're strong?
