

Ain't It Funny

Vory

Ain't it funny how (Yeah)
Only ones who can hurt you are the people that you love, uh?
Ain't it funny how, yeah
They only lookin' down when they sittin' above you, ain't it funny?
Same ones that tell you they love, yeah, ain't it funny?
Knew I never should've tried to save you, girl

But how you gon'
Just up and leave on me
Just up and leave on me
Leave me all lonely?
Just up and leave on me, girl
How you gon'
Just up and leave on me
Just up and leave on me
Leave all lonely (Uh), leave all lonely (Yeah)
How you

I flushed my feelings down the toilet 'cause you shitted on me
I fucked up, you got a nigga and stop waitin' on me
We ain't together but I know you still got feelings for me
And last night I text your phone and told you, "Put it on me"
And you ain't answer but I seen you on the 'Gram, where you were scrollin'
Liked your picture like a sucka, I can't hold it
Damn, and you ain't noticed
Ran into you with a ball player, it's like you ain't even know me
Damn, you gon' act like that?
Shit, how you get a nigga back like that?
After I almost spent a mil' on your ass, blowin' them racks like that
Fuckin' you good, from the back like that, for real
And I see you with that nigga and the Rollie I bought you
Hope that you ain't fuckin' him the way that I thought you
You got me hatin' on y'all, I can't wait 'til he cross you
You my baby, I can never abort you, on God

How you gon' (Yeah, yeah)
Just up and leave on me
Just up and leave on me
Leave me all lonely?
Just up and leave on me, girl
How you gon'
Just up and leave on me
Just up and leave on me
Leave all lonely, leave all lonely
How you

Yeah
I'm convinced they wanna see me down, how you (Uh, how you, ooh, yeah)
They don't really wanna see me win, I know (I know, oh, yeah)
I'm convinced they wanna see me down and break me 'round and drag my name in
to the ground, yeah
Say
Just know if they try and no one dies, and no one rides then I'm gon' ride,
yeah
'Cause they don't wanna see you with all this love of mine, yeah (You, you)
They don't wanna see you indulging all the time
They don't wanna see you when I post all the time

They don't wanna see you at all, they know you're mine (Oh, girl)

How you gon'

Just up and leave on me

Just up and leave on me

Leave me all lonely?

Just up and leave on me, girl

How you gon'

Just up and leave on me

Just up and leave on me

Leave all lonely, leave all lonely

How you
