

I wake up and pray to my God
That all my niggas 100
Cause lately some niggas been throwing shade
Lately some niggas been acting strange
I humble myself and I stay the same
I had to suffer throughout the pain
For my my niggas I promise I let be
For my brothers I'd die cause they would do the same
I don't give a fuck about all the fame
Want to fuck is a million and chase some dreams
Canada screw on thar purple purple
I am sipping purple then I pop the purple
I meditate ang get high [?]
Step on my lane they gon act the [?]
Shout out at my brothers [?]
Shout out at my brothers [?]
OG my nigga we working
Cause I asked some niggas who changed
I asked some niggas who showed them true colours and I could'nt
treat them the same
I asked some niggas who thought it was funny and they tool this
shit like a game
Had people selling me dreams
Deprived myself from a lot of things
All the foolery and fuckery
Want you niggas not to fuck with me
She lay lay lay like a lolipop
Imma sit back while she suck on me
She lay lay lay like a lolipop
I enjoyed the breeze while she suck on me
Mad cause I am chilling the sucker free
I am gone (lil bitch)
