Fallback Queen

Vory

It don't excite me
None of these niggas you fuck with like me
I'm seein' everything, that ain't my thing
My thing, my thing
You to know, you to know (I need)
You to know, you to know (I need)

Fall up at the fallback queen
Fall up at the fallback queen
Why you always leave me on seen?
Fall up like you know what I need

I know you been in your feelings, babe
I ain't seen you in a minute, babe
Playin' games, you know you killin' me (Killin' me)
I keep all receitps for me, I'll show you all the facts
I invest the money and you can't get a dollar back
I'm here catchin' feelings while you catchin' planes, uh
I'm here tryna listen to what you have to say
You blow me
Fallin' back, uh
Fallin' back, misery, heart attack
Feelin' me, didn't we get attached?
Got me runnin' laps
You tryna play hard to get

It don't excite me
None of these niggas you fuck with like me
I'm seein' everything, that ain't my thing
My thing, my thing
You to know, you to know (I need)
You to know, you to know (I need)

Fall up at the fallback queen
Fall up at the fallback queen
Why you always leave me on seen?
Fall up like you know what I need

Need you in your bag and not your feelings, baby
She a natural killer, fashion killer, baby
You ain't gotta tell me twice, give distance, baby
So you can see what you been out here missin', baby
Said you missin' somethin' but I know it ain't me
If this is who you choosin' over me, I'll let be
Just so you could see, just so you could see
I might mix the Perky with the Xanny, get it crackin', yeah
You tell me you're better off, you happy, know you're actin', yeah
I told you that my feelings weren't involved, know I was cappin', yeah
You done got too used to the all them niggas chasin' after you

None of these niggas you fuck with like me
I'm seein' everything, that ain't my thing
My thing, my thing
You to know, you to know (I need)
You to know, you to know (I need)

Fall up at the fallback queen

Fall up at the fallback queen
Why you always leave me on seen?
Fall up like you know what I need

Fall up at the fallback queen
Why you always leave me on seen?
Fall up like you know what I need
