

# ONCE AGAIN

Vory

I always find myself in these dark clouds  
Come to you lord, cause I don't know how  
Come to you lord, cause I don't know why  
The devil tryna get me, oh man  
Said the devil tryna get me once again  
Said the devil tryna get me once again

I thank God, thank God  
For taking care of me  
I thank God, thank God  
For watching me  
You're the lord who reigns  
You're the lord who reigns  
You're the lord who reigns  
Don't wanna walk this without your grace  
And don't wanna miss a moment of your face  
And don't wanna lose my way, I need your pace  
And don't wanna lose on miracles  
You leave your trace oh

Rain on me  
Shower down  
Let your spirt follow me  
Show me now  
Your compassion  
Has taught me something  
To love my enemies  
When they owe me nothing  
Yeah we all struggle  
But I go and seek peace  
Cause life is a puzzle and we need a piece

Rain on me  
I wanna be  
Reborn through your water  
Praying for your mercy  
Never leaves  
Praying you stay  
Patient with me  
I forgive my enemies  
Lemme share the word  
Lemme share some words  
Was a wreck, was a sinner  
Man I never learned  
Badly hurt  
I was hurting myself  
Doing things I don't do  
I was burning my health, like...

I always find myself in these dark clouds  
Come to you lord, cause I don't know how  
Come to you lord, cause I don't know why  
The devil tryna get me, oh man  
Said the devil tryna get me once again  
Said the devil tryna get me once again

Father can you hear me

I been losing faith  
Trying to right these wrongs  
Trying to save face  
You put me on this earth  
Where these demons have escaped  
The devil was your favorite  
So really who am I to blame

No pointing fingers, I just call it out  
Vision what this life about  
Devil in my ear saying  
Boy you know this is the better route  
How when I call for you, They answer  
You leave me dry like a tall of stout  
I got this darkness in my arms  
I've been carrying the whole amount

I guess I'm pushing it  
When I say now  
That we all make mistakes when we in the grave now

I guess I'm pushing it  
When I say now  
That we all make mistakes when we in the grave now  
Can you hear me?  
Hear me  
Hear me  
Hear me  
Hear me  
Hear me  
Oh once again  
Oh once again

I always find myself in these dark clouds  
Come to you lord, cause I don't know how  
Come to you lord, cause I don't know why  
The devil tryna get me, oh man  
Said the devil tryna get me once again  
Said the devil tryna get me once again
