

## Wallo Speaks

Vory

You know what's crazy?  
You know I had to come to the realization that we all lost souls  
I've been lost my whole life  
You know?  
Identity crisis, not knowing who I am, not wanting to accept who I am  
I'm running from that, you running from that, we running from that  
We all lost you know?  
No matter if we giving advice, no matter if we got money, no matter if we go  
t things, no matter if we married, no matter if we single, no matter if don'  
t no matter nothing  
We all lost out here

But we find this beautiful way to make the people to believe that we want to  
impress  
We been tryna make people believe through these magical ways that we try to  
camouflage our lostness  
But I don't care who you are, you lost. I'm lost, we lost

You know, then we try to use words, like, you know, "you're selfish", the st  
rong manipulation words, "you're selfish"  
But if I gotta die, you gotta die, you gotta die, think about that  
You gotta go before me  
Self-preservation - everybody is putting theyself first

But in this lost world that we in and in our lost minds we try to make other  
people believe that if they're selfish - self-preservation  
That they're selfish. Think about that

Hiding behind your Instagram caption, hiding you know you're hiding the hurt  
or at least you're trying to hide the hurt, you trying to camouflage the hu  
rt  
You don't want nobody to see that you're hurting inside  
So you get these things because you're lost, I'm lost, we lost  
Think about that

I don't care what you got, I don't care where you've been until you deal wit  
h the lostness in your life  
And the reality is we may not ever be able to deal with it while we're here  
But I know one thing, I'm lost

No matter how much I'm able to encourage you or motivate you in the morning  
or you could watch my stuff live or whatever  
My shit really do stink  
It do  
I ain't got my shit together, I'm still traveling through life trying to fig  
ure it out. Just like you

But guess what?  
Imma tell you something - and it's a secret - and it might have people that'  
s gonna go against what Imma tell you because they're lost and they don't wa  
nt to embrace the reality of life  
Money don't make you happy  
When I got it I was disappointed  
And the reason I was disappointed, because all my life I was told and I was  
educated by the machine, the marketing machine, that once I get it everythin  
g would just magically disappear -  
My trauma, my childhood pain, you know, pain, the vacancies of my childhood

and my upbringing, all the struggle, everything that I've been through, everything I'm going through as a grown-ass man now as an adult

But guess what? It was a lie

Everything I've been told about money - when I got the money, I signed on the dotted line, the wire hit my account, I thought I was going to feel this excitement

I thought everything was gonna go away

Everything that ever happened to me, everything that ever happened to my family, everything that ever happened to my mind in all these different ways and all the stuff I know and all the stuff I was exposed to

But it didn't. That's why I'm lost

You are too - we're all lost

And the reality is, while we're here, we'll never been un-lost

Lost souls
