One Day

Votchi

One day you'll find the way
One day you'll come back home and find what you've left behind
One day you'll stop to shed your tears When you get there

One day you'll understand
One day you'll shake hands with those who were off your mind
One day you'll face up to your fears
One day you'll win

R:
With hands reaching in the air you can feel no pain
with every move you make you dance for a new day

We love the masters, masters, you can't be wrong!
We play for you, oh, oh...

Let's rock in every place
Gimme sweet vibration, the sound is great
Music is inside of you!
No, and I can't rock alone,
come sing with me

R:
With hands reaching in the air you can feel no pain
With every move you make you dance for a new day
We love the masters, masters, you can't be wrong!
We play for you, oh, oh...
Once played the song still runs away!
Once played the song never lets you stay!
