

Blood's On Fire

VOWWS

Throw myself away
I never wanted anyone like you
Fall for your display
Somebody's gotta be your fool

One stop to nowhere I've been
Waiting forever

Come on slowly
Wind me up 'til it's all slow motion
Promises for me and me only
Turn me into a walking shadow
If I ever let go

Run me on overdrive
Until my blood's on fire

Day is on its way
Whoever knew a dream could be so cruel?
I won't be the same
Without my harmony so true

Non-stop to nowhere, I'll be
Riding forever

Getting stronger
I can't see straight but it's no problem
Just sleepwalk 'til I find the daylight
Take away all I ever wanted
If I ever let go

Run me on overdrive
Until my blood's on fire
