Esseff

VOWWS

I gave you all I had, you said
I gotta get a handful
'Cause I'm fishing for a lifeline
Instead of learning from a master

Don't you remember
When we had forever?

You brought the walls down with a single breath
Spoke a language that was already dead
House divided, you're gone forever

And in the shadow of your monument
I try to keep my hands clean
I wanna keep a piece of myself
But you know everything about me

Say you remember
That we said forever

You brought the walls down with a single breath
Spoke a language that was already dead
House divided, you're gone forever
