

## Heartbreaker

VOWWS

If somebody told you they'd seen you before  
They know what you did, you're no good at all  
Would you become a disease, kill off any cure?  
'Cause they can trace to a point, but they can never be sure

Here comes that heartbreaker we've been after  
And he's a power child, no cracked actor  
I'm running circles, I'm walking daydreams  
And disappointment is all I get for free

Become a disease, kill off the cure  
Become a disease, become a disease kill off the cure

Are you gonna stay 'cause you've seen this before  
Are you walking away 'cause you can't take anymore?  
Just 'cause it's not a game doesn't mean you can't lose  
Everything looks the same so it's harder to choose

Here comes that heartbreaker we've been after  
And he's a power child, no cracked actor  
I'm running circles, I'm walking daydreams  
And disappointment is all I get for free

Here comes that heartbreaker we've been after  
And he's a power child, no cracked actor  
I'm running circles, I'm walking daydreams  
And disappointment is all I get for free

Become a disease, kill off the cure  
Become a disease, become a disease kill off the cure
