

Hurt You

VOWWS

I found an easy stone to throw
One chance I could not let go

I never meant to hurt you
Was yours for worse or better
I'm living in a dream I had but
I don't remember anymore

No past, nowhere else to go
Only a silent song you will never know

I never mean to hurt you
Loose words gave us no shelter
Just parts of all we had but
I don't remember anymore
