

## It's A Trick

VOWWS

Don't interrupt me when I'm talking to myself  
I'll never get an answer  
Questions and promises are hazardous to health  
And you should know much better

You'll never know what makes me sick  
You'll never know what makes me sick  
And you're never gonna know what makes me tick  
Don't try to turn back my clock, it's a trick  
Don't try to turn back my clock, it's a trick  
Don't try to turn back my clock, it's a trick

You'll never know what makes me sick  
You'll never know what makes me sick  
You'll never know what makes me sick  
You'll never know what makes me sick

You'll never know what makes me sick  
You'll never know what makes me sick  
And you're never gonna know what makes me tick  
Don't try to turn back my clock, it's a trick  
Don't try to turn back my clock, it's a trick  
Don't try to turn back my clock, it's a trick
