

It's You

VOWWS

Escape position and invade
I'm collecting moments I can live while you're away
Restraint, it's not my middle name
But I'm subject to promises that I've already made

I'll stray, but young hearts fly right over time
I'm yours, you're mine, good love is so hard to find

It's you that makes me wanna stay
But I can pass on by when you look the other way

I'll stay 'cause young hearts can blend over time
I'm yours, you're mine, good love is so hard to find
