

One By One

VOWWS

Face to face, walk on a wire
You got me on a good day
There's no getting higher

All I want is a lie to rely on
And a song on the way to salvation

Get awake, put your hand in the fire
You can do it my way, discover desire

All I want is a lie to rely on
And a world of delights unfolding one by one
Every second a lifetime's worth of temptation

All I have are delights unfolding one by one
Every second a lifetime's worth of temptation
