

## Wild Wind

VOWWS

I'll say, look at you  
The pieces fell away, no I'm left with the view  
There's no moving parts giving away the design  
I'll move ahead anyway, I say the treasure is mine

You'll never know this  
But you changed me  
When I could never change myself  
A wild wind, you cut right through me

Double time, get beside me  
I am of a mind to put this business behind me  
There's not surprises just unfolding disasters  
I am counting the steps to the end  
Nothing comes after

You'll never know this  
But you changed me  
When I could never change myself  
A wild wind, you cut right through me

You were my outline  
You contained me  
When I could not control myself  
A wild wind, you cut right through me
