Listen

Voyager

Torn inside the sigh
Private in my eyes
Pick up the phone and just make the call
Just make the call
You intensify
Every time you hide
Pick up your head and just make the call
Oh yeah
'Cause you have thought it through
And every day it's true
Picked up your hand and just made the call
You made the call

So this is how it's done
Tell me when you're done
And now the sun is rising
And now you're realising
Don't you feel better now?
Are you off centre now?
Why did you listen to me, why?
Why did you listen to me sigh?

Morning
Into the evening
You are in limbo again
Time just isn't your friend
So I am breathing
You're down the line that you wish you had never called
That line you wish you had never told

So this is how it's done
I'm gonna tell you when I'm done
And now the sun is rising
And now you're realising
Don't I feel better now?
Are you off centre now?
Why did I listen to you, why?
Why did I listen to you sigh?

This is how it's done
I'm gonna tell you when I'm done
And now the sun is rising
And now you're realising
So tell me don't I feel better now?
Are you off centre now?
Why did I listen to you, why?
Why did I listen to you sigh?

Don't I feel better now
Are you off centre now?
Why did I listen to you, why?
Why did I listen to you sigh?
Don't I feel better now
Don't I feel better now
Don't I feel better?
Don't I feel better now
Don't I feel better now

Don't I feel better?
