

## Now or Never

Voyager

And all the colours collide  
And we are wasting into the now or never  
As we ascend to an end  
The friends we have will all just dream together  
We haven't gotten this far  
Is there a chance that we can go the tether?  
I haven't practiced this part  
But that's the way that we're gonna roll forever

Into the now, into the now, the now or never  
Into the now, into the now, the now or never

Immer wieder sind wir alle Tagediebe  
Immer diese Weltanschauung  
Ist auf einmal aufgetaut sag jetzt oder nie
