Reconnected

Voyager

Take the time to socialise
Unless it's time to sever ties
The feeling of a tethered touch
Will always be a little much

Forced to look into your eyes
It's far too late to prophesise
The end is in a damaged shell
Protagonists are for the sell

So in time we're sometimes reconnected
Reconnected
So in time we're sometimes reconnected
Reconnected
So in time we're sometimes reconnected
Disconnected

Precious abode
Reconnect the alone
It's the carbon on skin
That draws you in

Is it so sad
That without you I've had
Labyrinthical feels
That will never be real

Letting go
Letting go – oh oh
Letting go
Letting go – oh oh
Letting go
Letting go – oh oh
Letting go
Letting go – oh oh

Letting you decide
Is a tragedy for a while
Letting you decide
Until all of our worlds collide
Letting you arrive
Made it all just a better life for me

Forced to look into your eyes
It's too late to prophesise
It's an emotion in mourning

Take a minute to put you down
You are the silent clown
In a prolific connection

Любовь, любовь
Внемли моленья:
Пошли мне вновь
Свои виденья
И поутру
Вновь упоенный

Пускай умру
Непробужденный
