

# Runaway

Voyager

Try it once or twice  
In the distance is the noose around the vice  
Oh, it's real  
Even if an ordeal  
See us together when?  
See us together then

Share the bitter end  
In the distance is the smile around the bend  
Oh, make a deal  
Oh, if you have to kneel  
See us together, old  
See us together now

Oh  
You can't hold this over me, over me  
Oh  
You can't pull this under me, under me  
Oh  
You can take the easy way, easy way  
Easy way (Oh)  
You don't get to run away, run away

Oh, oh  
We don't know how this is so divine  
In the distance is the dissonance that we try so hard to find  
Oh, it's real  
Even if an ordeal  
See us together  
See us together, old  
See us together

Oh  
You can't hold this over me, over me  
Oh  
You can't pull this under me, under me  
Oh  
You can take the easy way, easy way  
Easy way (Oh)  
You don't get to run away, run away

Oh  
You can't hold this over me, over me  
Oh  
You can't pull this under me, under me  
Oh  
You can take the easy way, easy way  
Easy way (Oh)  
You don't get to run away, run away

You don't get to run away from this  
You don't get to run away from this
