

## Severomance

Voyager

Oh, you ever ever should have known  
Oh, you never ever should have gone away  
Oh, so you should have stayed in the darkest hour  
Oh, you never ever saw the spark  
And so it's time to sever immense

(We've been defeated)  
So it's time to sever events  
(We've been deleted)  
So it's time sever immense  
(We've been defeated)  
So it's time to sever events  
So it's time to severomance

So it's time to sever...

Oh, it's mourning  
Whatever really wasn't yours I'm scoring  
And every time I rate it far too high it's  
As if I'm reaching for the sky I'm burning  
My hands up under the sun

(We're undefeated)  
It's a lot like you're number one  
(You've been deleted)  
It's all so immense  
(We're undefeated)  
And yet it all just make sense  
So it's time to severomance

So it's time to sever...

So it's time to sever all  
It's the time to sever, time to sever  
It's the time to sever, time to sever

We never should have known  
We never ever should have known  
We never should have known  
We never ever should have known  
We never should have known  
We never ever should have known  
We never ever should have known

So it's time to sever...
