I'm Wired

VUKOVI

In my mind those voices call, call me Lucifer
And bit by bit my senses make me pitiful
And all the while your heart sits in the palm of my hand
I'm so lost within the shadows, will you lead her to the bright side?

And you know I'm wired
And I'll run to the fire
Schizo taking over
Weirdo
I know I said
Don't hang, hang around
But you know I'm wired
Don't go

I'm in a lightless place losing my mind
And all the while I turn my back to open arms
I'll be acting like a child and I'll light a fire
And all I need is a moment to tell myself I'm not even trying to feed
 her

And you know I'm wired
And I'll run to the fire
Schizo taking over
Weirdo
I know I said
Don't hang, hang around
But you know I'm wired
Don't go

In my mind those voices call, call me Lucifer
And bit by bit my senses make me pitiful
And all the while your heart sits in the palm of my hand
I'm so lost within the shadows, will you lead her to the bright side?

And you know I'm wired
And I'll run to the fire
Schizo taking over
Weirdo
I know I said
Don't hang, hang around
But you know I'm wired
Don't go
And you know I'm wired
And I'll run to the fire
Schizo taking over
Weirdo
I know I said
Don't hang, hang around
But you know I'm wired
Don't go
