

# Obsessions

VUKOVI

I can see what you're doing to me  
With the rope infixation  
Let you in fool me when you're done  
Lose me head in the moment

Distorted obsessions  
In our heads

I'll be back  
You don't want to let me down  
Oh I can feel the rapture  
Don't you go and let me down

I can see what you're doing to me  
With the rope infixation  
Breathe you in fool me with your guts  
Lose my head in the moment

Distorted obsessions  
In our heads

I'll be back  
You don't want to let me down  
Oh I can feel the rapture  
Don't you go and let me down
