

Play With Me Cos I Can Take It

VUKOVI

Just another day she's coming for the ride (oh, oh oh oh)
Like a little sister mummy makes you God (oh, oh oh oh)

She brings me up she tears me down
Can't control when she's around
Like a limb we're bound for life
It's getting on worth my time

Here she comes (you're heavy, so damn heavy)
Manipulating my heartache
Here she comes (you're dirty so damn dirty)
I'm victim of dealing with your pain

And I love the way you string me up
You use me then you cut me off
And a fire's burning in my heart (light it light it light it)

Just another day she's fucking up my life (oh, oh oh oh)
Like a toxic thorn who's stuck in my side (oh, oh oh oh)

She brings me up she tears me down
Can't control when she's around
Like a limb we're bound for life
It's getting on worth my time

Here she comes (you're heavy, so damn heavy)
Manipulating my heartache
Here she comes (you're dirty so damn dirty)
I'm victim of dealing with your pain

And I love the way you string me up
You use me then you cut me off
And a fire's burning in my heart (light it light it light it)

You like the fine and wake in your eyes
You step on my sanity then forget it
It's just you and me no one else can see
Who truly repulsive you are at ease
Let's get one thing right I never lose a fight
I get up the more you entice me
It's just you and me, you're all I see...
