

QUENCH

VUKOVI

I cut the leash, you come right back
Don't want a meal, just want a snack
You're gonna need me like Prozac
(Think he's gonna get it bad)
I cut the leash, you come right back
Don't want a meal, just want a snack
Won't wanna leave, I know that's a fact
Ha-ha-ha-ha, ha-ha-ha-ha-ha

Wait

Your face alone, it took my breath away
Maybe I've got a crush
Wonder if you maybe feel the same
Can I call you daddy?

I cut the leash, you come right back
Don't want a meal, just want a snack
You're gonna need me like Prozac
(Think he's gonna get it bad)
I cut the leash, you come right back
Don't want a meal, just want a snack
Won't wanna leave, I know that's a fact
Ha-ha-ha-ha, ha-ha-ha-ha-ha

I'm not in love, just wanna feel your touch
You know why, you know why
You quench my thirst, who's gonna move in first?
You're so fine, you're so fine

You're smoking
Don't look human, I'm dazing
Choking on your aura, embrace me
I love the taste of walking a knife's edge
I can let you play with that
Don't say that you love me

I cut the leash, you come right back
Don't want a meal, just want a snack
You're gonna need me like Prozac

I'm not in love, just wanna feel your touch
You know why, you know why
You quench my thirst, who's gonna move in first?
You're so fine, you're so fine

Your lips on my body
Crucify me
I know you win some, lose some
But I need a little bit of dirt
I want amusement, daddy
'Cause I'm dying slowly

I'm not (Not) in love (Love), just wanna feel your touch (Just wanna feel yo
ur touch, yeah)
You know why, you know why (Touch, yeah)
You quench (Quench) my thirst (My thirst), who's gonna move in first? (Just
wanna move in first, yeah)

You're so fine, you're so fine

(Think he's gonna get it bad)
