VUKOVI

Run

Run
Hide

My monster
You suck me under
Force-feed my lungs with the water
Crazy, that's what you made me
Drugging my soul, spit in my nightmares

Go
I give, you take
I break when we're alone (I'm so alone)
You love the way I bleed
You dive in deep and close
(Slice to the bone)

Run
Hide
Run
Hide

My roses and violets are dead
Ripped up the roots from their own bed
Is it just me or are we serious?
Do we love the things that might kill us?

Go
I give, you take
I break when we're alone (I'm so alone)
You love the way I bleed
You dive in deep and close
(Slice to the bone)
Can I run, can I hide?
I wanna rid you of the things you do
And run, would you fight?
(Can I make the rules?)

Run

(Little girl, laughing)
Hi, how cute!
Pretty looking, oh I think he saw me...

(More laughter, followed by the little girl's voice, but it's been modified to sound sinister)

... well now that you know, I can't let you live!

Go
I give, you take
I break when we're alone (I'm so alone)
You love the way I bleed
You dive in deep and close
(Slice to the bone)
Can run, can hide
I wanna rid you of the things you do
And run, would you fight?
(Can I make you run?)
