

# Violent Minds

VUKOVI

I can't get through unless it's you  
We'll be alright with our violent minds  
And I can't let go from your tortured soul  
(It's you, daddy)  
It's you, daddy

You pull my wires, you fuel the fire  
It's like a child screaming more, more, more  
And I can't let go from your tortured soul  
(It's you, daddy)  
It's you, daddy

Ooh baby, ooh baby (I don't like it)  
It's gonna light a fire (But I'll fight it)  
Ooh baby, ooh baby (You're a virus)  
But your heart is mine, I can't cut the line

Come on daddy, haunt me  
I know you're never gonna leave me  
Indulge in your sick mind  
And baby, I'm yours  
You're stopping me this one time  
So I tell myself I'm alright  
I'm gonna lose my Gold Stars  
And baby, I'm yours

I think I'm free, then you whisper to me  
"You might look alive but you're dead inside,"  
And I can't let go from your tortured soul  
(It's you, daddy)  
From you, daddy

Your touch is sweet but your voice is fire  
It's in my head, your dominance  
And I can't let go from your tortured soul  
(It's you, daddy)  
It's you, daddy

Ooh baby, ooh baby (I don't like it)  
It's gonna light a fire (But I'll fight it)  
Ooh baby, ooh baby (You're a virus)  
But your heart is mine, I can't cut the line

Come on daddy, haunt me  
I know you're never gonna leave me  
Indulge in your sick mind  
And baby, I'm yours  
You're stopping me this one time  
So I tell myself I'm alright  
I'm gonna lose my Gold Stars  
And baby, I'm yours

And oh, where you're going to?  
I cannot get over you  
And oh, it makes me feel so right  
Slip into the dark with our violent minds  
And oh, where you're going to?

I can not get over you  
And oh, makes me feel so vile  
Back into the dark with my violent mind

(Come on daddy, haunt me  
I know you're never gonna leave me  
Indulge in your sick mind  
And baby, I'm yours)

Come on daddy, haunt me (Come on daddy, haunt me)  
I know you're never gonna leave me (You're never gonna leave)  
Indulge in your sick mind  
And baby, I'm yours (I'm yours)  
Stopping me this one time  
So I tell myself I'm alright (I'm telling myself, I'm telling myself)  
I'm gonna lose my Gold Stars  
And baby, I'm yours
