

Big Dipper

Vulfpeck

You've got to push yourself right to the limit
You've got to send it till there's no coming back
Get off the game if you're not here to win it
'Cause the devil's coming up to bat
You've got to push yourself right to the limit
Chasing the wind baby, Paxton and Hunt
Push past the pain and silence the critics
The final lap has just begun

And when hope feels gone
You can sing, there's a sign

Big Dipper, help me find a way
Big Dipper, shine your light for me
Big Dipper, in the corner of my
Mind mind mind mind
Big Dipper, help me find a way
Big Dipper, shine your light for me
Big Dipper, in the corner of my
Mind mind mind mind mind

Now I know what to do when the stars pull me through
Tow me on the line
Holding me, holding me, holding on

You've got to push yourself right to the limit
You've got to send it till there's no coming back
Get off the game if you're not here to win it
'Cause the devil's coming up to bat
You've got to push yourself right to the limit
Chasing the wind baby, Paxton and Hunt
Push past the pain and silence the critics
The final lap has just begun

And when hope feels gone
You can sing, there's a sign

Big Dipper, help me find a way
Big Dipper, shine your light for me
Big Dipper, in the corner of my
Mind mind mind mind
Big Dipper, help me find a way
Big Dipper, shine your light for me
Big Dipper, in the corner of my
Mind mind mind mind mind

Now I know what to do when the stars pull me through
Tow me on the line
Holding me, holding me, holding on
