

Earworm

Vulfpeck

Not in your stomach, I'm not in the ground
Not in a limousine, cruisin' around town
I'm not a bug, not quite a germ
I'm a humble catchy melody, I'm a earworm
And it go

I only know a couple of tunes
Don't take requests, no "Fly Me to the Moon"
It's gotta be simple, got no time for rehearsal
How 'bout that jingle from that jewelry commercial? (Yeah)

Doc said "it's common", Doc said "it's fine"
Doc reassure him, I'm totally benign
'Cause when you search, if you're losing your mind
Just remember earworms got to survive
And it go-op

I'm not deep, got nothing to prove
Just in here singing that earworm blues
Move out to the country, get away from it all
Find a new ear, and start singing along
Everybody!
