

Off and Away

Vulfpeck

Take it again
From the beginning
Why don't you change your tune
Always the same
Day after day
Every moment you spend here
Wasting our time

Push us as you please
Give us a new direction
Leave us while you go

Off and away
Straight out the door
Back to your friends
Tell them you don't need us anymore

Time and again
Every promise you make us
Wears us away

Push us as you please
String us along
Set us at ease
Leave us as you go

Off and away
Just like before
Take back your life
And tell us we're not worth it anymore
Straight out door
Back to your friends
Tell them we don't need them anymore
