

# Running Away

Vulfpeck

Anytime you think about her  
The feeling's there  
She's thinking about you  
About you, about you  
Oh and anytime you see her in the street  
What choice is there?  
She's gotta see you  
After you're through  
Oh whoa

Oh I got to believe it, baby  
That you're thinking about me maybe  
I don't know what you're thinking about any other day  
When you keep on running away (You keep on running)  
Running away (But you keep on running away)  
Running away (But you keep on running)  
Running away (But you keep on running away)

I try not to expect much anymore  
It's over now  
But what was it all for?  
What was it all for, yeah yeah  
Oh and I'll always care about you, baby (Try not to let you go)  
The feeling's there  
We grew it too long  
To say it's gone  
Oh yeah, it's gone (it's gone)

Oh I got to believe it, baby  
That you're thinking about me maybe  
I don't know what you're thinking about any other day  
When you keep on running away (You keep on running)  
Running away (But you keep on running away)  
Running away (But you keep on running)  
Running away (But you keep on running away)

Oh why'd you keep on running?  
Why'd you keep on running away?  
Why'd you keep on running away?  
(Why'd you keep on running away?)

I don't mind thinking about her  
As long as she's thinkin' 'bout me  
About me, about me  
About me, eh oh

I got to believe it, babe  
That you're thinking about me maybe oh  
I don't know what you're thinking about any other day  
When you keep on running away (But you keep on running)  
Running away (But you keep on running away)  
Running away (But you keep on running)  
Oh (But you keep on running away)

Oh why'd you keep on running?  
Why'd you keep on running away?  
Why'd you keep on running away?

(Why'd you keep on running?)  
Why'd you keep on running?  
Why'd you keep on running away?  
Oh yeah (Why'd you keep on running?)  
(Why'd you keep on running away?)  
Why'd you keep on running?  
Why'd you keep on running away?  
(Why'd you keep on) running away?
