

Anthropophagus

Vulvodynia

Sinking my teeth into skin so sweet
Human flesh
All you can eat
Feast on my enemies
Crushing bones to dust
Throat slit
Bleeding out
Power transferred
Gaining the power of my enemies
Through means of cannibalism
You reap what you sow
As my stomach digests you slow
Your soul feeds into my arteries
Soon you'll be my faeces
Now your energy apart of me

Ripping skin from bone
Sanguine flesh of man
Savage
Inhuman
Lifeforce consumed
Gaining the power of my enemies
Through means of cannibalism
You reap what you sow
As my stomach digests you slow
Your soul feeds into my arteries
Soon you'll be my faeces
Your your energy apart of me
Sinking my teeth into skin so sweet
Human flesh
All you can eat
Rotten abomination
Gorge on
Flesh of man
Absorb goldly energy
Anthropophagus
Rotten abomination
Gorge on
Flesh of man
Absorb goldly energy
Anthropophagus

Wolfing down every inch of the carcass
Not an ounce of lifeforce shall slip through my grasp
Useless lifeforms plaguing the earth
Within my bowels you'll find your rebirth
Gaining the power of my enemies
Through the means of cannibalism
You reap what you sow
As my stomach digests you slow
Your soul feeds into my arteries
Soon you'll be my faeces
Now your energy apart of me
Picking the meat from my teeth
Your soul now resides within me
