

Anti-Machination

Vulvodynia

We are vessels for their corruption!
We are vessels for their corruption!
Stand up, see through the fog, they have blinded us
Stand up, see through the fog, we are not sheep

This ignorance exists but it can be destroyed
We are in the same fucking struggle!
We can't change the past
But we can create a new future where we are kings and thee oppressors rot in their graves!

I command you too rise from the ashes and slay your authority now
I command you too rise from the ashes and slay your authority down

Prepare yourself for revolutionary genocide
It's liberty or death, choose your side

Destroy the power that mentally incarcerates you
Fuck authority, we vote for assassination!
