

Hospital receipts
They make a coffin seem so cheap
You listen to that old hen speak
It's almost like he knew what I mean

But you don't know how it feels
No, you don't know how that feels
No no, you don't know how that feels
No, you don't know how it feels

Consecrate the shrink that sat on the machine
That mangled this one's body
Can you give a vessel what it needs?

But you don't know how it feels
No, you don't know how that feels
No no, you don't know how that feels
No, you don't know how it feels

Government job
He followed us around the block
To see if we were feigning loss
What a discerning eye he's got

But you don't know how it feels
No, you don't know how that feels
No no, you don't know how that feels
No, you don't know how it feels
Oooh

Do do do do do do
Do do do do do do
Do do do do do do
Do do do do do do
Oh
