

Kalidasa

Vundabar

Let's see what we see, and make our mark
They'll never know that it's me, it's a shot in the dark
And Jerry agrees, inhale the imagery
And if you think it's dumb, then you're just like me

But I feel good, I feel great
I feel better than I did
And I've got time, if you'd like
Disregard any reason or rhyme

Hop on the T, if you drop the B
We can't dance around, cuz we'll step on your feet
We'll give you this if you give us that
And the guy up front said he'd kick my ass

But I feel good
I feel great
I feel better than I did
And I've got time if you like
Disregard any reason or rhyme

Started for and ended clean
This kid ain't got a thing on me
Empty and dying in the morning
And my head hurts

But I feel good, I feel great
I feel better than I did
And I've got time, if you'd like
Disregard any reason or rhyme

I feel good
I feel good
I feel good
