Vundabar

Heading on the highway  
I said it's this or my way  
So I put down my foot and away I drove  
No place I mean to run from  
I can't leave what I can't see like  
A camera can't show and take a photo of itself

So come on!

Baby, walking on the breeze  
Come on baby!

I can't give it  
And I can't take it

You gotta let me know  
Who I'm supposed to be  
If you're so close to me  
Why do I feel alone

You gotta think that through  
If you don't know yourself  
How could you know someone else  
Get back and let me know

Endless conversation  
Killing on vacation  
So mama oh me I'm gunna carry that home

The sound of rushing water  
The devil and his daughter  
Becoming unbecome  
And I'll burn up in the sun  
So come on!

Baby walking on the breeze  
Come on baby!

I can't give it  
And I can't take it

Hey  
Okay  
This life on ice  
Is all right

You gotta let me know  
Who I'm supposed to be  
If you're so close to me  
Why do I feel alone

You gotta think that through  
If you don't know yourself  
How could you know someone else  
Get back and let me know
