

Spades

Vundabar

We've got spades on spades
No hands but we'll try to play
The one you dealt for us
Angel's hair
Angels rust

We've got spades and spades
No hand but we'll try to play
The fool you take us for
I've got mine
I want yours

I'm watching you watching me
Watching you watching me
Watching you watching me

I'm watching you watching me
Watching you watching me
Watching you watching me

Everybody's asking
But nobody knows the question

Everybody's asking
But nobody knows the question

I can't feel a
I can't feel a
I can't feel a thing

I can't feel a
I can't feel a
I can't feel a thing

Everybody's asking
But nobody knows the question

Everybody's asking
But nobody knows the question

I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me

Watching you watching me
Watching you watching me
Watching you watching me
I'm watching you watching me
Watching you watching me
Watching you watching me
Watching you watching me
