

Beginning

VV Brown

We're all swimming underneath the waters
Underneath the waters
We rose towards the surface
Trying to find oxygen

We are the beginning
Fall beneath the seas
Move into the light now
Move into the light now
Say your here

I never though that I would find
Something like this
I never though that I would find
Something like this

If I'd stayed here all night, I

I never though that I would find
Something like this
I never though that I would find
Something like this

We all swim
We swim underneath
Underneath the sea
Swim
Swim
Swim
Swi-i-i-i

Underneath the sea
