VV Brown

Fractured
Fully been fractured
Fully been fractured
Fully been fractured
Lights lights lights lights
Fully fractured

Lights, camera, action, walk
Still making that walk
Deals, meals, fucking hard
Cynical, windy paths
A&R's, bullshit stars
Click, switch, forget about that bitch
'Cause this game is hard like a bitch
Gotta be tough if you wanna run with it

Fierce power, boss, leader
Think hard, no fear
Run fast, 100 meters
Work, work, be a believer
Don't take no for an answer
Go get your shit, fight for it
Get your shit, fight for it

They said I would fail, they said I would crash
They said I would bail, they said I wouldn't last
But I'm still here
They said I would fail, they said I would crash
They said I would bail, they said I wouldn't last
But I'm still here

Strong, strive, head first
You knew from birth
Fight, smash, break down
Scream, fly, try, every time
Win, game, sweat, pain, start all over again
Twelve years underdog, trusting on your instincts
