Rise up, rise up
Rise up, rise up

Blue, red, lights, mess, colorful
Image, trends, its and bits, girls playing
Sun rays, glasses black, die young
Wine, beer, drunk fool, brown blood, white bowl
Candy, candy
Bite break, hold it down, swag or what
Crime, crime, push to (push to)
Hanging up any here
It's so weird and wonderful, Alice

Could live without all the noise, wanna blow it all out
Don't wanna hear the static energy
All I wanna do is fly next to you
And fly amongst the clouds

So rise up, rise it all up
Won't you rise it all up?
Won't you rise it all up?
What's this shit all about?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise?

Hands out, baby, I'm gon' rise above, above
Come now, tell me, you've been gone for far too long

Down, drugs, smoke, cars, iPhones, Mars bars
Boy rich, slave free, clean dirt, pain free
Black, white, girl, boy, fuck white privilege
Equal, mixed, American evil bitch
Up, down, imbalance, capital Marxist
Secret society, digital narcissist
Dead life, air space, next to the brush of your face
Rise up, see this, prefix

Could live without all the noise, wanna blow it all out
Don't wanna hear the static energy
All I wanna do is fly next to you
And fly amongst the clouds

So rise up, rise it all up
Won't you rise it all up?
Won't you rise it all up?
What's this shit all about?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise?

Hands out, baby, I'm gon' rise above, above
Come now, tell me, you've been gone for far too long

Lazarus, rise, rise!

Lazarus, rise, rise!

Could live without all the noise, wanna blow it all out
Don't wanna hear the static energy
All I wanna do is fly next to you
And fly amongst the clouds

So rise up, rise it all up
Won't you rise it all up?
Won't you rise it all up?
What's this shit all about?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise it all up?
Won't you rise?

Hands out, baby, I'm gon' rise above, above
Come now, tell me, you've been gone for far too long

Rise up, rise up
Rise up, rise up
