

# Philosophy

VV Brown

I won't give you my time  
It's a portal of mine  
I'll politely decline  
I'm moving forward

It's not a mission of while  
It's a matter of time  
It's my choice to decline  
I'm moving forward

Oh, it's philosophy!  
It's philosophy!  
Sings through the night, break through the morning, spirit is calling  
Oh, it's biology!  
It's biology!  
My heart is craving, body is breaking, we're only human

Monday (a stronger faith)  
Tuesday (in your own liberty)  
Wednesday (believe in your work)  
Thursday (because you are somebody)  
Friday (don't rely on anyone)  
Saturday (to make you feel)  
Sunday (that you are no body)  
We do it all again  
We do it all again

I am over your pride  
No longer inclined  
To deliver your means  
To sects of people

I am happily fine  
I'm living my life  
Decided that I'm  
No longer able
