

# Talk About This

VV Brown

I could never ever let you go  
Ever stronger when you let it go, go  
I don't really feel that you should go, no  
We can work it out, yes you know  
Yeah, you know  
So, listen

We need to talk about this love  
We need to talk about this love  
We need to talk about this love  
We need to talk about this

Everything, I felt it from the core  
First thing, all my instincts I ignored  
All of them  
Now he came along and broke the chains, chains  
I don't wanna do this shit again  
Again, oh, listen

We need to talk about this love  
We need to talk about this love  
We need to talk about this love  
We need to talk about this  
We need to talk about this love  
We need to talk about this love  
We need to talk about this love  
We need to talk about this

We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need  
We need to, we need to, we need to talk, we need

We need to talk about it  
We need to talk about this love  
We need to talk about it  
We need to talk about this love

We need to talk about this love  
We need to talk about this love  
We need to talk about this love  
We need to talk about this
