

Big Grief

WAAX

Where am I now?
I can't believe I'm in a world
That likes to burn and spit you out
Like coal
And cleanliness is godliness
I better rinse my mouth out
With soap
I feel exposed and so let down and now
I hope
I get to see tomorrow, not because I'm so damn tired

I got a big grief pouring out of me
Some days it's not so easy
Got a big grief spilling out of me
Some days it's not so easy

Where will we go?
Another year, another lie
Another useless ruckus road
So cold
Stay calm, stay sat in what you're told

I got a big grief pouring out of me
Some days it's not so easy
Got a big grief spilling out of me
Some days it's not so easy

Where am I now? (Where will we go?)
Where am I now? (Where will we go?)
Where am I now? (Where will we go?)
Where am I now?

I got a big grief pouring out of me
Some days it's not so easy
Got a big grief spilling out of me
Some days it's not so easy
Got a big grief burning out of me
Some days it's not so easy
Got a big grief burning out of me
Some days it's not so easy
